

Camp Manager for airport project in Ilulissat, Greenland

During the next 4 years, Munck Civil Engineering are building airports in Nuuk and Ilulissat. For the project in Ilulissat, we are now looking to recruit a committed camp manager.

As our new camp manager, you will be responsible for operation and maintenance of our camp, which houses up to 100 employees from the project.

The camp consists of separate rooms for the employees with shower and toilet. In addition, canteen and common rooms, e.g., a TV-room and a gym.

You will be responsible for a staff of 10-15 employees – including in particular our cleaning staff.

You will be responsible for:

- Planning and coordination of the cleaning activities for the camp premises
- Operation, maintenance, and, if necessary, repair of facilities
- Reception and accommodation of new employees
- Coordination with the canteen manager
- Management of the cleaning staff

We are looking for a person, who:

- Have an eye for details and put a virtue in functioning and good looking facilities
- Are a skilled coordinator of efforts and knows when to take act
- Has experience with management and motivation of staff
- Can ensure good service and satisfied guests
- Are flexible, committed and energetic
- Holds a regular driving license

We offer:

- A unique opportunity for working and living in Greenland
- Professional and personal experience from an international infrastructure project
- Board and lodging in our camp near the construction site
- Salary and terms of condition according to qualifications
